"Seven hundred thousand visifors last year . . . No one jokes at Gettysburg now.

That's what Arthur Juntunen, travel writer for the Detroit (Mich.) Free Press, wrote in his column last Sunday.

And because the Free Press editor inserted a box in the article stating that free literature on Gettysburg was available from the local park superintendent, Dr. J. Walter Coleman's office has been literally swamped with inquiries.

Here is what Mr. Juntunen had to say about Gettysburg:

Trojans Will Play Here On Friday

Chambersburg high school's baseball team, needing but one victory to cop another South Penn league title, will meet the Gettysburg high Warriors on the local field Friday afternoon at 3:30 o'clock.

The Trojans suffered their initial league loss to Hanover Wednesday afternoon 2-1. However, a victory over the Warriors will give them the league honors.

By sweeping its two remaining league games, Chambersburg here on Friday and Shippensburg here on Monday, Coach Howard Shoemaker's clan could gain a tie for first place.

WORLD PEACE IS POSSIBLE IN **NEW COAL PACT**

By DEWITT MACKENZIE

(AP Foreign Affairs Analyst) Only a great threat like the cold war could have brought about such amazing gestures of peace as are being exchanged between bitter enemies like France and Germany.

France has proposed the pooling 10:30of Europe's vital coal and steel in- 11 dustries under a common authority as a move towards peace and prosperity. This project-approved by the cabinet and announced by Foreign Minister Schuman-would include the joining of France's output in the rich Saar and Lorraine regions with that of Germany's industrially famous Ruhr Valley.

Chancellor Konrad Adenauer of West Germany has greeted this astonishing proposition as "a magnanimous step of the greatest possible significance," adding:

"It appears to me that this creates the pre-conditions for making any future conflict between France and Germany impossible."

It is with surprise and near awe that one witnesses such an exchange of apparent amity. To realize what a change may be in the making you of "Boche" for the German. That expressive word sums up all the hatreds engendered by the Francocountryside of France.

World Peace?

Well, there has been a lot of talk about another world war being whelped in Europe. What about the possibility of world peace coming out of the continent?

Now of course we mustn't rush to conclusions. A sweeping proposal has been made by Paris, and a quick and favorable reply has been received from Germany. That's the egg on which the dove of peace must sit, and we should be foolish to rush to conclusions before the hatching-if any.

However, it's obvious that the

This Time The Anti-Trust Lawyers Won A Case Against A&P

As almost everyone now knows, the anti-trust lawyers in Washington have brought a civil suit to destroy A&r.

They ask the courts to order the dissolution of this company.

They say that this suit is based on the fact that they won a suit against us at Danville, Illinois, in 1946.

They did. In that case, Federal Judge Walter C. Lindley made a decision against A&P.

Immediately thereafter, in a letter explaining his decision, Judge Lindley wrote:

"I have not condemned the A&P system.

I have not made a finding which could

be the basis for a suit of dissolution."

So, now we have the anti-trust lawyers saying that their suit to dissolve A&P is based on Judge Lindley's decision; while Judge Lindley himself says his decision could not be the basis for a suit of dissolution.

In previous ads we told you about the cases against A&P which the anti-trust lawyers lost. We promised to tell you about this case they won. Here is the story of the Danville case.

What Judge Lindley Objected To

At Danville, the anti-trust lawyers made all of the charges which they are again making against A&P today. They were substantially the same charges they had made and dropped at Dallas, Texas, after four federal judges had objected to some of them as "inflammatory." In his decision, Judge Lindley was critical of some of our activities. He threw some of the charges out of court. He did not make any decision on others.

He even took occasion to praise A&P for the efficient job of food distribution it had done. Judge Lindley said:

"To buy, sell and distribute to a substantial portion of 130,000,000 people, one and three-quarter billion dollars worth of food annually at a profit of $1\frac{1}{2}$ cents on each dollar, is an achievement one may well be proud of.

"No place in the world I take it are people so well fed as in the United States. Nowhere else, I suppose, do food distributors accomplish efficient distribution at so low a margin of profit. In contrast, we are told in other nations the problem is not one of an adequate diet but one of no diet at all."

But Judge Lindley did find us in violation of the Sherman Act. He based his ruling on the dual role played by our fresh fruit and vegetable buying subsidiary, the Atlantic Commission Company, whereby that organization acted both as buying agent for A&P and as selling agent for growers.

Judge Lindley said:

"If I assume for the purpose of disposition of this case that in general the policy of A&P was to operate within the law and attribute to defendants a desire to comply with the law, there still remains the conscious, knowing adoption by all defendants of a plan of action by the Atlantic Commission Company affecting every department of A&P and every retail store which cannot be squared with the intent and purpose of the act."

In his letter explaining the decision, Judge Lindley wrote: "I have condemned their practices through the Atlantic Commission Company."

Judge Lindley imposed fines totaling \$175,000. When his decision was upheld by the Circuit Court of Appeals in Chicago, we paid the fines. This ended the case—but we did not stop there.

What We Did To Correct This

In the light of the decision, we immediately set about reviewing our activities to be sure that there could never again be any criticism of our operations.

First, the Atlantic Commission Company abandoned the dual role to which Judge Lindley objected and which he said was the basis of his decision against us.

We did this even though the Atlantic Commission Company had been licensed for many years by the United States Department of Agriculture to act as both a buyer and seller of fresh fruits and vegetables.

The Atlantic Commission Company now only buys for A&P. In other words, we stopped doing the thing which Judge Lindley said put us in violation of the Sherman Act.

We made additional changes in other methods of operation which Judge Lindley had questioned at Danville, even though he did not base his decision on them.

We did even more than this!

We went down to Washington and asked the anti-trust lawyers what else they thought we should do to conform to their new interpretation of the vague anti-trust laws.

The only answer we ever got was that we should break up this company!

Despite their claim that they were not opposed to A&P's size, they insisted that we destroy this size.

Despite their claim that they were not opposed to our manufacturing operations, they insisted that we get rid of our factories which produce many of the fine foods you buy at A&P.

Despite their claim that they were not opposed to our low prices, they insisted that we destroy many of the efficiencies that make these low prices possible.

In other words, they insisted upon the dissolution of A&P.

We were still trying to find out from the anti-trust lawyers what else they thought we should do to conform to the law when they filed the current suit to destroy A&P.

Why, Then, Do They Want To Put A&P Out Of Business?

Ever since this suit was filed, the anti-trust lawyers have been making damaging statements that could seriously hurt our business if they were believed by the public.

They say that we were found guilty at Danville of all the charges they are making today.

This is not true. Judge Lindley did not sustain all of the charges of the antitrust lawyers.

They say this suit is designed to enforce the law.

But A&P has clearly demonstrated its sincere desire to abide by the spirit, as well as the letter of the law.

They say they are seeking to "enjoin" A&P from engaging in certain "alleged" practices.

Actually, the whole purpose of this suit is not to "enjoin" us, but to put us out of business.

They say that this suit for dissolution is based on the decision handed down by Judge Lindley in Danville.

But Judge Lindley has said of his decision: "I have not made a finding which could be the basis for a suit of dissolution."

What, then, is the real reason why the anti-trust lawyers want to destroy this company, which for 90 years has pioneered the methods of distribution which have given the American people more good food for their money?
